

Strategic Planning Excellence

The CAMMS Strategy Management capability is a powerful and intuitive software system that enables both public and private sector organisations to develop an integrated, systems driven approach to strategic planning, execution and performance management.

Organisations can take advantage of built-in planning and performance management frameworks, measures, KPIs and reports that are designed to comply with regional and national legislation as well as international regulations and best practices.

A simple, easy-to-use interface enables leaders, managers and team members to enter data with intuitive workflows, visualise progress through scorecards and customisable dashboards, and access detailed financial, managerial and ad hoc reports; increasing accountability and linking daily actions to the achievement of overarching strategies.

CAMMS has worked with both the public and private sector for nearly two decades to create a complete solution that delivers real benefits.

Our clients have described a 30% increase in the efficiency of corporate and strategic reporting processes and a 27% increase in the productivity of reporting staff with CAMMS.

“CAMMS strategy execution solution was the only product reviewed to confidently meet our business requirements in a single solution, and to do so in an 'out of the box' fashion requiring minimal configuration and additional cost.”

Joanne Greatbanks,
Business Performance Analyst,
Dunedin City Council,
New Zealand

A Real Advantage with Better Outcomes

- ✓ Translate vision into clear and objective performance measures, KPIs and actions
- ✓ Increase understanding, accountability and engagement around strategic goals for staff of all levels
- ✓ Reduce time and resources required for reporting
- ✓ Drive performance by creating and implementing business and operational plans that are aligned to strategy
- ✓ Keep clear track of organisational performance and progress easily with indicators and notifications
- ✓ Enhance analysis and reporting abilities
- ✓ Create and manage all types of plans across the organisation with scalable software
- ✓ Increase efficiency and improve productivity
- ✓ Faster and better-informed decisions with access to real-time information

“Prior to implementing CAMMS Health solutions, Bendigo Health were data rich and information poor. Through the utilisation of CAMMS we have made reporting intuitive, something managers think about on a regular basis.”

Yvonne Wrigglesworth,
Director of Governance, Strategy & Risk,
Bendigo Health,
Australia
