

INCIDENT MANAGER

Protect your organisation with lifesaving insights from CAMMS Incident Manager

Incident Manager
A CAMMS SOLUTION

A Simple Process for Better Incident Management

Capture, Track, Investigate, Report:
Four steps to comprehensive incident management.

Lifesaving Insights

Losses, damages, injuries and near-misses; be prepared to face them all and protect your staff and organisation.

See the Bigger Picture

With clear visibility over all organisational incidents you can identify trends and highlight recurring incidents.

Greater Transparency and Accountability

Understand your incidents inside out, monitor corrective actions and know where you stand.

React Smarter

Learn from past experiences and ensure your entire organisation is ready to respond to recurring incidents in the most appropriate way.

Create a Stronger Approach to Organisational Risk Management

Ensure incident management is included as a part of your enterprise risk management and understand its links to risk, hazards and audits.

CAMMS drives organisations from strategy to reality with its world leading suite of Enterprise Performance Management and Business Intelligence solutions. Using a unique blend of strong conceptual understanding and significant technical expertise, CAMMS empowers companies by helping you visualise the “bigger picture” with fully integrated systems.

Access anytime, anywhere on the **CAMMS Cloud**

CAMMS Incident Manager's functionality gives you a powerful advantage

Easily Identify, Record and Manage

Maintain comprehensive records of all organisational incidents and enjoy fast, easy access to information through a central incident log.

Accountability at the 'Click' of a Button

Assign responsibility for incidents and get managerial approval for logged incidents and corrective actions effortlessly.

Prioritise

Determine the impact of each incident and prioritise your attention so you never miss the ones that matter the most.

Manage Investigations and Corrective Actions

Carry out multiple investigations, manage information, determine corrective actions and monitor easily and quickly.

Keep Up to Date

With automatic e-mail notifications and flexible reports you will always be on top of your incidents.

Integration

Incident Manager integrates fully with CAMMS' risk solution, as well as the entire CAMMS suite and external front-end and back-end systems.

Incident	Incident type	Resp officer	Reported date time	Priority	Severity	Current phase	Status	Investigation due date
